PROFESSIONAL SUMMARY

A full-stack developer with hands-on experience in MERN (MongoDB, Express.js, React.js, and Node.js) stack and mobile application development. Experienced in leading teams and delivering functional web and mobile systems, including e-commerce and collaboration platforms. Interested in integrating machine learning features and focused on building scalable, user-centered software.

TECHNICAL SKILLS

Frontend: HTML, CSS, and JavaScript | jQuery and Bootstrap | React, React Native
Backend: Node.js and Express.js | PHP and Laravel | Python
Databases: MongoDB, MySQL, and Firebase
Tools & Platforms: Git & GitHub | Visual Studio Code | Insomnia and Postman | Microsoft Office

KEY PROJECTS

- GlycoFit: Prediabetes Lifestyle Risk Assessment with Ongoing Management and Monitoring**
- Developed cross-platform mobile and web application using React Native, React, and Python backend technologies. Integrated Google Sign-In authentication for both web and mobile platforms
 - Implemented AI-powered Food Scan and Sleep Tracking features to support lifestyle monitoring and prediabetes risk management.
- Spherify: A Team Collaboration and Project Management Platform for Software Developers**
- Led a four-developer team in developing a collaboration platform using the MERN Stack and applying Agile/Scrum practices.
 - Engineered real-time messaging, video conferencing, file sharing, and task management features using Socket.io.
- Borrow My Wheels: Car Rental Platform**
- Developed a full-stack car rental platform using React Native and the MERN Stack for mobile and web users. Implemented Google Sign-In authentication and Firebase Cloud Messaging (FCM) for notifications.
 - Built vehicle management, booking, and user interaction features for renters and vehicle owners.

PROFESSIONAL EXPERIENCE

- Tech Admin Intern**
CIM Technologies Inc., Makati City | February 2026 - August 2026
- Automate Internal forms, such as sending emails and product summary reports, using the app's script (JavaScript Code) in Google Spreadsheet.
 - Reformat and Windows OS Installation on PC.
 - Installation of software such as Autodesk products.
 - Basic Troubleshooting of Software Issues.

EDUCATION & CERTIFICATIONS

- Bachelor of Science in Information Technology (BSIT)**
Technological University of the Philippines - Taguig | September 2022 - September 2026
Relevant Coursework: *Web Development, Frontend Development, Backend Development, Mobile Development, Hardware and Software Troubleshooting*
Academic Honors: *Dean's Lister and President's Lister (1st to 4th year)*
- Certifications & Seminars:** Generative AI and Prompt Engineering (Microcredential) | iThink Hackathon at PBW 2025 | Tech Talk 3.0: Software & Mobile Development | DEVCON Summit 2022
